<b>Environment:</b>	poll-app test environment		

#### Description

The problem is that there is no error message displayed when the user misses to input username/email or password.

Steps to reproduce:

1. Open polling app login page - <http://poll-app7-20200409.softacad.bg/login>
2. Leave username and password fields blank.
3. Click on the login button

Expected result: Error message for not entering a value in the username and password field is displayed.

Actual result: No such error message is displayed.

Please refer to the linked test case for further information.

Good job Tanya,

Please don't forget to assign the ticket to the appropriate person. Otherwise, it will remain untouched and no one will know about the described above problem. Another point I see here is

the "Affects Version" attribute, which value is not set as well.

Thank you for the feedback, Stephan. I will keep your recommendations in mind.

Comment by [Stephan Ashkenazy](#) [ 03/Aug/20 ]

You are welcome!

This is a good practice to follow.

Comment by [Stephan Ashkenazy](#) [ 04/Aug/20 ]

Please re-test.

Comment by [Stephan Ashkenazy](#) [ 04/Aug/20 ]

The problem was retested and is:

- Okay - close

- Not okay - reopen

Comment by [Tanya Prodanova](#) [ 04/Aug/20 ]

Hello Stephan,

I re-tested the ticket in version 1.0.2 of the Polling App and it is still not working according to specifications- there is no error message displayed for not entering a value in the username and password field.

Please let me know when it is fixed.

Tanya

Well done Tanya,

We will look FWD for the fix and will let you know.

Comment by [Stephan Ashkenazy](#) [ 04/Aug/20 ]

Start working on this.

Comment by [Stephan Ashkenazy](#) [ 05/Aug/20 ]

Tanya,

Please try to re-test and add a comment about the observed result.

Comment by [Tanya Prodanova](#) [ 12/Aug/20 ]

Hello Stephan,

I re-tested the ticket in the newest version 1.1.1 of the Polling app and the problem still occurs.

Tanya
